FEDERATED WINS FBI ITOC CONTRACT

Washington, D.C. (October 1, 2008) – Federated Information Technologies (Federated IT) Inc. announced today that it is an awardee on the FBI’s Information Technology Operations Division Task Order Contract (ITOC). This multiple-award Indefinite Delivery/Indefinite Quantity is a 5 year contract with a ceiling of \$175m.

Federated will be supplying information technology support services to include personnel and facilities to design, develop, maintain, enhance and provide operational support for automated systems that are, or will be, resident on mainframes, minicomputers, servers and microcomputers.

“We are very excited about this program and look forward to continuing our service to the Department of Justice,” said Matthew Bucholz, President of Federated. “It’s fantastic for our team that our technical past performance and task order processes were recognized for their value and we’re eager to show what we can do. All the members of our team have worked together before and we have established the lines of communication and personal relationships that will ensure success.”

Founded in 2002 by a retired US Army Special Operations Communications Officer and a retired US Marine Corps Officer, Federated IT is a Service-Disabled Veteran-Owned, 100% Native American Owned, HUB Zone and 8(a) Certified Small Disadvantaged Business.

Federated IT focuses on delivering high quality professional services for its customers and excellent benefits for its employees. Specifically, it provides innovative Information Technology engineering services and Information Assurance support to the Department of Defense (DoD), Intelligence Community (IC), and civil government customers. Headquartered in Washington DC, Federated’s employees provide professional services to customers located around the globe.
