FEDERATED AWARDED \$26 MILLION CONTRACT WITH TSA

Washington, D.C. – Federated Information Technologies, Inc. (Federated IT) announced today that it will commence work on critical TSA Threat Assessments under their five-year, \$26 million prime contract with the Department of Homeland Security's (DHS).

Under the Transportation Threat Assessment and Credentialing (TTAC) contract, Federated and its subcontractor, QinetiQ North America (QNA), will conduct and adjudicate Security Threat Assessments (STAs) on over 1 million individuals per year applying for credentials that provide access to certain critical transportation infrastructure. STAs include performing automated biometric captures, immigration, and criminal record checks and utilizing both federal and state resources to review and assess intelligence-related information. The majority of the work will be performed in Northern Virginia.

"This program will provide a tremendous service to the public and our national security," said Matthew Bucholz, President of Federated. "Security Threat Assessments have never been more necessary and our adjudicators and analysts are the best trained and most experienced in the industry. We are proud to be working alongside our TSA partners."

Founded in 2002 by a retired US Army Special Operations Communications Officer and a retired US Marine Corps Officer, Federated IT is a Service-Disabled Veteran-Owned, 100% Native American-Owned, HUB Zone and 8(a) Certified Small Disadvantaged Business. Federated IT focuses on delivering high quality professional services for its customers and excellent benefits for its employees. Specifically, it provides innovative Information Technology engineering services and Information Assurance support to the Department of Defense (DoD), Intelligence Community (IC), and civil government customers. Headquartered in Washington, DC, Federated's employees provide professional services to customers located around the globe.
