Ranked **49th** in the Top 100 Disabled Veteran Owned Business in the U.S.

Ranked **61st** in the Top 100 8(a) Businesses in the U.S.

Ranked **10th** in the Top 50 Diversity Owned Businesses in District of Columbia.

Ranked **44th** in the Top 100 Privately-held Businesses in District of Columbia.

Washington, D.C. - January 25, 2011- In recognition of Federated IT’s continued growth and success, DiversityBusiness.com has named it as one of the top businesses in the United States in six different categories.

This is the 11th annual listing of United States Top Businesses by Diversity Business.com. Over 750,000 businesses in the United States had the opportunity to participate. The list is a comprehensive look at the most important segment of the United States economy - America’s privately held companies. In addition, the list represents a compilation of companies that truly differentiate themselves in the market place at a time when small businesses are stepping up to meet the challenge of true job creation in the United States. The winning companies were recognized at an awards ceremony at DiversityBusiness.com’s - **11th Annual National Business Awards Ceremony and Conference** - in April in Washington DC.

“We are a diverse company that’s for sure, and that ensures a wide perspective when developing solutions for our customers. But it’s the unity with which we come together to tackle real problems that impresses me. Our team has some of the best talent in the industry and what sets them apart isn’t just diversity, it’s the excellence they deliver.” said Matthew Bucholz, President.

About Federated IT

Founded in 2002 by a retired US Army Special Operations Communications Officer and a retired US Marine Corps Officer, Federated IT is a Service-Disabled Veteran-Owned, 100% Native American-Owned, and 8(a) Certified Small Disadvantaged Business. Federated IT focuses on delivering high quality professional services for its customers and excellent benefits for its employees. Specifically, it provides innovative Information

Technology engineering services and Information Assurance support to the Department of Defense (DoD), Intelligence Community (IC), and civil government customers. Headquartered in Washington, DC, Federated’s employees provide professional services to customers located around the globe.
