**Inc. Magazine Unveils Exclusive List of America's
Fastest-Growing Private Companies-in the Inc. 5000**

Federated IT Ranks No. 1806 on the 2010 Inc. 5000 with Three-Year Sales Growth of 152%

Washington, DC -- Inc. magazine has once again recognized Federated IT as one of the fastest-growing, private companies in America with a spot on its fourth annual Inc. 5000. The list represents a comprehensive look at the most important segment of the economy-America's independent-minded entrepreneurs. With this accomplishment, Federated joins the rarified company of enterprises who have appeared on the list multiple times, many of which have grown to become national icons as the nation's fastest growing companies.

"The leaders of the companies on this year's Inc. 5000 have figured out how to grow their businesses during the longest recession since the Great Depression," said Inc. president Bob LaPointe. "The 2010 Inc. 5000 showcases a particularly hardy group of entrepreneurs."

Despite the fact that most of this year's measuring period of 2006-2009 took place during the latest recession, aggregate revenue among the companies on the list actually increased to \$321.6 billion, up more than 50 percent from last year. This year's Inc. 5000 employ a record 1.4 million people, up from one million on last year's list. With unemployment remaining stubbornly high, policymakers and business leaders will do well to look to the Inc. 5000 companies for fresh ideas on achieving growth and creating jobs.
