BOSTON, MA – The Initiative for a Competitive Inner City (ICIC) and *Fortune Magazine* announced that Federated IT (Rank #34) was selected for the 2012 Inner City 100, a list of the fastest-growing inner city companies in the U.S. The Inner City 100 program recognizes successful inner city companies and their CEOs as role models for entrepreneurship, innovative business practices and job creation in America's urban communities.

The rankings for each company were announced at the Inner City 100 Awards on Wednesday, May 9, 2012 in Boston, MA.

Collectively, the top 100 inner city businesses employ 7,965 employees and have created more than 4,635 new jobs between 2006 and 2010. Not only are they powerful

job creators in their communities, but they also treat their employees well – a stunning 93% of the list provide health insurance.

“We are delighted to celebrate businesses like Federated IT that are playing a critical role in revitalizing communities across the country. Through their achievements, the Inner City 100 winners exemplify America's remarkable potential and the future of our urban centers,” said Mary Kay Leonard, ICIC President and CEO. “These extraordinary companies demonstrate the market potential that exists within our inner cities and the growth that is at the heart of all urban entrepreneurial successes.”

The list is proof of concept that doing business in an inner city area holds a distinct competitive advantage. ICIC has been studying the economic condition of the largest 100 American cities for more than a decade and is working to revitalize inner cities across the country.
