Inc. Magazine Unveils Its Annual Exclusive List of America's Fastest-Growing Private Companies -- the Inc. 5000

Award marks 4th consecutive year company receives this honor

***Federated IT Ranks No. 1723 on the 2012 Inc. 5000
with Three-Year Sales Growth of 166%***

Washington, DC -- Federated IT announced today that for the fourth consecutive year, Inc. magazine has recognized it as one of the fastest-growing, private companies in America, ranking Federated IT at No. 1723 in its sixth annual Inc. 5000 list. While many businesses were hunkering down, consolidating or downsizing due to the economy, over the last three years Federated IT grew by 166%.

"Federated IT solutions work. Period." said Matthew Bucholz, President of Federated IT. "Our clients want effective and reliable solutions. That is what they get when they hire us, and we work hard to earn their business every day."

With this accomplishment, Federated IT joins the rarefied company of enterprises who have appeared on the list multiple times, many of which have grown to become part of the nation's fastest growing corporations.

"It's fantastic to be an Inc. 5000 Alumni. The only way to make this list is if the company has had consistent growth," said Matthew Bucholz. "Federated IT has a solid foundation, a proven track record, terrific technical and service capabilities and the trust of its clients."
