Inc. Magazine Ranks Federated among Fastest Growing Businesses in US 5th Year in A Row

Washington DC - Inc. Magazine recently ranked Federated IT among the top private Government Contractor Technology companies on its annual Inc. 5000, for the 5th consecutive year. “If you want to know which companies are going to change the world, look at the Inc. 5000,” said Inc. editor Jane Berentson. “These are the most dynamic, fast-growth companies in the nation, the ones finding innovative solutions to problems, creating smart systems, and inventing products we soon discover we can't live without. The Inc. 5000 list is Inc. Magazine's tribute to American business ingenuity and ambition.”

The list represents the most comprehensive look at the most important segment of the economy—America's independent-minded entrepreneurs. Companies such as Microsoft, Zappos, Intuit, Under Armour, Jamba Juice, American Apparel, Oracle, and hundreds of other powerhouses gained early exposure as members of the Inc. 5000.

Federated's 5th consecutive ranking is an achievement that puts them in exceptional company, but they didn't get there by luck. “Sustained profitable growth in turbulent times. We established it as a goal, hired the best talent and empowered them to make it a reality. This is definitely a team win. We owe whatever success we've achieved to our employees who are motivated every day and fight the good fight to make the US a stronger and safer place”, explains Federated IT President, Matthew Bucholz. “We take our corporate mission seriously and our customers have responded with their trust.”
