FEDERATED IT AWARDED \$6 BILLION DIA E-SITE BLANKET PURCHASING AGREEMENT

Washington, DC — The Defense Intelligence Agency (DIA) recently awarded Federated IT a 6 Billion dollar, 5-year blanket purchase agreement (BPA) for the DIA's Enhanced Solutions for the Information Technology Enterprise (E-SITE) program. Federated IT was one of 25 small business awardees, chosen for their abilities to provide comprehensive Information Technology technical support services.

The focus of the ESITE effort is to implement a common IT approach to improve integration information sharing and gain efficiencies and increased safeguarding of information. It is anticipated that mission outcomes will be improved through a common architecture and consolidated operations, as well as an increase in migrations to virtual and cloud environments.

Federated IT, a leader in Information Technology support and cloud services innovations, will have the opportunity, through this BPA, to provide enhanced IT and technical support services to the Government through system design, development, fielding, and sustainment of global intelligence and command and control (C2) assets. These services will support various customers and agencies across the Department of Defense and Intelligence Community.

"We will support the DIA in their mission for increased efficiencies and security and deliver a superior customer experience. We will do so by utilizing innovative, malleable solutions that include a focus on superior performance and cost avoidance," stated Company President, Matthew Bucholz.

About Federated IT

Founded in 2002 by a retired US Army Special Operations Communications Officer and a retired US Marine Corps Officer, Federated IT is a Service-Disabled Veteran-Owned, and 100% Native American-Owned Business. Federated IT focuses on delivering high quality professional services for its customers and excellent benefits for its employees. Specifically, it provides innovative Information Technology engineering services and Information Assurance support to the Department of Defense (DoD), Intelligence Community (IC), and civil government customers. Headquartered in Washington, DC, Federated's employees provide professional services to customers located around the globe.
